## 5x10/100/1000Base-TX

### Brief Introduction

OC-7N3005 is a new generation Industrial Media Converter with 5-Port 10/100/1000Base-TX that provide stable and reliable Ethernet transmission with high quality design and reliability. It is positioning in the broadband network intervention market, to offer and realize Ethernet data exchange, convergence and long-distance optical transmission with efficient bandwidth and reliable fiber optic network solutions for users. The Industrial Media Converter complies with various characteristics such as mini size, no fan, low power consumption, high reliability and stability, and easy to maintain.

OC-7N3005 can offer redundant mechanisms for critical applications that need always-on connections. It can also operate either at standard operating temperature range -40 to 75°C. Housed in rugged DIN rail or wall mountable IP40 enclosures, these switches are perfect choices for harsh environments, such as industrial networking, intelligent transportation systems (ITS) and are also suitable for many military and utility market applications where environmental conditions exceed commercial product specifications.
